8 March 1956

MEMORANDUM FOR: Project Security Officer

THROUGH : Project Director of Administration

SUBJECT : Priority Clearances for AACS Personnel  
to Operate GCA Equipment

1. It is requested that priority consideration be given to security clearances for the following AACS personnel:

- a. [redacted] Radar Operator Supervisor.
- b. [redacted] Radar Mechanic.
- c. [redacted] Radar Operator.
- d. [redacted] Radar Operator.
- e. [redacted] Radar Mechanic.

25X1

2. The above personnel have been selected by [redacted] AACS, for TDY (90 days) assignments to this Project for the purpose of operating and maintaining GCA equipment. These personnel will be sent to a special training school starting on 19 March, and will be available for assignment to the Project after completion of this school which will last for 3 weeks for the Radar Operators, and 2 weeks for the Radar Mechanics.

3. Operational requirements make it necessary that these personnel be given priority consideration so that they may be available to Watertown prior to the departure of Base A personnel. The GCA equipment will arrive at Watertown prior to the end of March and, at the present time, we have no one qualified for the operation and maintenance of such equipment.

4. It is planned to have 2 Radar Operators and 1 Radar Mechanic assigned to Watertown, with an additional Operator in stand-by status. [redacted] is being assigned from Lakenheath to the school and return and will not be utilized by the Project until Base A has arrived overseas.
